ROLE OVERVIEW:

We are seeking a highly skilled and experienced Senior Web Developer to join our dynamic team. The ideal candidate will have a strong background in web development, a passion for gaming, and the ability to lead projects from conception to completion. This role involves collaborating with designers, developers, and other stakeholders to create high-quality web applications that enhance the gaming experience.

KEY RESPONSIBILITIES:

- Lead the development and maintenance of web applications and websites related to our games.
- Collaborate with designers, product managers, and other developers to create responsive and user-friendly interfaces.
- Optimize web applications for maximum speed and scalability.
- Ensure the technical feasibility of UI/UX designs.
- Mentor and guide junior developers, providing technical leadership and code reviews.
- Integrate web applications with backend services and APIs.
- Stay up-to-date with emerging trends and technologies in web development and the gaming industry.
- Troubleshoot and debug issues to ensure smooth operation of web applications.
- Contribute to the continuous improvement of development processes and best practices.

QUALIFICATIONS AND SKILLS:

- Bachelor's degree in Computer Science, Engineering, or a related field.
- Should ideally include familiarity with PHP frameworks such as Laravel, or CodeIgniter.
- 5+ years of experience in web development, with a strong portfolio of completed projects.
- Proficiency in HTML, CSS, JavaScript, and PHP frameworks such as Laravel, or CodeIgniter.
- Strong understanding of responsive design principles and cross-browser compatibility.
- Experience with version control systems (e.g., Git).
- Excellent problem-solving skills and attention to detail.
- Strong communication and teamwork abilities.
- Passion for gaming and a deep understanding of the gaming community.
- Experience in the gaming industry or with game-related web applications.
