REPORTING RELATIONSHIPS

      ACCOUNTABLE TO: LAS CASAS GAMING INC.

      REPORTS TO: GINO RAFAEL I DIMAANO

ROLE OVERVIEW:

We are seeking a skilled Mobile Applications Developer to join our team and develop mobile applications for iOS and Android platforms. The ideal candidate will possess expertise in mobile application development, ensuring high performance, responsiveness, and reliability.

KEY RESPONSIBILITIES:

1. Design, develop, and maintain mobile applications, ensuring they meet performance, user experience, and functionality criteria.
2. Manage databases for mobile apps and web projects, including data modeling and optimization.
3. Create mobile apps for various platforms, ensuring compatibility and performance.
4. Build server-side logic, APIs, and databases to support mobile app functionality.
5. Develop user interfaces for mobile and website applications with responsive design.
6. Conduct comprehensive testing and debugging of mobile apps and web projects to identify and resolve issues.
7. Performs other related duties as assigned by the IT head.

QUALIFICATIONS AND SKILLS:

- A bachelor's degree in information technology, computer science, or a related field.
- Proven experience in mobile application development for both Android and iOS.
- Familiarity with web development, including front-end and back-end technologies.
- Having a portfolio is a plus.
- Experience collaborating with product managers, designers, and application engineers to refine and improve the complete user experience
- Problem-solving skills and adaptability to work across mobile and web projects.
- A keen interest in exploring new mobile technologies and web development practices.
- Having an in-depth knowledge of programming concepts, languages and databases.
- Familiarity with web development technologies, such as HTML, CSS, JavaScript, and web frameworks.

- Front-end and back-end development skills, including server-side programming and database management.
- Strong debugging and troubleshooting abilities.
- Security practices for mobile and web applications.
- Ability to work with multiple, distributed teams
- Energetic, positive attitude combined with a drive to get things done
- Passion to grow and advance and a self-driven personality is a must
- Strong interpersonal skills
- Strong written and verbal skills
